Could I meet with you to discuss the possibility of grad admission
prior to having formally completed my BS? Maybe conditional on
completion of the latter by a certain time or something like that.
I gather there is some precedent for this, though perhaps infrequent...

I'm leaving town Thursday evening (7/24) for 3 weeks, so before that
would be good, if possible.
Thanks, Jay.

Actually getting admitted to Grad school before completing the BS is
almost impossible, as the Park Building will flat out reject our decision
to admit you. We can then appear before the University Grad. Admit. Comm.
and make an appeal but we would certainly fail.

What I suggest is to start taking grad classes, finish the BS, and then
apply to receive the course credit upon admission to the grad school. All
of these details are under CS control and will present no problem.

If you still want to talk about it - Kathy has the appointment book.

The river should be good

I'd like to talk with you about fulfilling the 519
requirement (tho not the credit) via the pcc project.
If your office hours are ok, they're fine with me (they look
pretty hectic).
...Getting some (pass1) output that looks pretty good.
